TRAVEL GUIDE BOOK

Nine Must-do's in Tsubamesanjo

Tsubamesanjo is the area where Tsubame and Sanjo cities lie. Both cities are blessed with mountains and rivers where beautiful nature and advanced technologies coexist. In the past the rivers overflowed often and the people suffered from flooding that prevented them from farming. In spite of this, they worked to overcome these difficulties, taking advantage of the land and the people. They started a metal processing industry as a secondary business 400 years ago, becoming a world class craftsmen town now. Try immersing yourself in Tsubamesanjo with the nine sights and experiences introduced in this pamphlet. Journey to an eco-friendly town of craftsmanship that keeps innovating while protecting tradition; Tsubamesanjo is waiting for you.
